Application US/07882202A

Sequence 3. Application US/07882202A

Patent No. 5374617

GENERAL INFORMATION:

APPLICANT: MOTISSEY, James H.

APPLICANT: Comp, Philip C.

TITLE OF INVENTION: Treatment of Bleeding with Modified

TITLE OF INVENTION: Tissue Factor in Combination with FVIIa

NUMBER OF SEQUENCES: 4

CORRESPONDENCE ADDRESS:

ADDRESSE: Richards, Medlock & Andrews

STREET: Lallas

CITY: Dallas
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            ó
